ECLIPSE OF A NEW ORDER

KANTFISH

2026

_ *Web Artwork*

Technical sheet

Title: Eclipse of a New Order

Author: Kantfish

Year: 2026

Format: Web system, 24 hour duration

Support: Unique URL active on August 12, 2026

Base image: Perspective of a New Order, photograph, Metrópolis series

Web system: HTML, video loop Perspective of a New Order v.glitch h.264, video Moonfire h.264

Synchronized event: Solar eclipse, maximum at 19:30 WEST, Montesinho, Portugal Astronomical

Synchronization Reference: 26 seconds, Montesinho, northern Portugal

Produced in Portugal

Proposed for: The Wrong Eclipse, 2026

TOTAL DURATION: 24 HOURS | KEY EVENT WINDOW: 18:28 – 20:23 (1:55:00)

ALL TIMES IN WEST (WESTERN EUROPE SUMMER TIME) | MONTES/NHO, PORTUGAL
TOTAL ECLIPSE DURATION (TOTALITY): 26 SECONDS

Eclipse of a New Order turns a real solar eclipse into a perceptual system where error, synchronization and collapse become indistinguishable.

19:30

Temporal frames from Eclipse of a New Order (2026)

The city is saturated by light, information and instruction until clarity collapses into confusion.

The astronomical eclipse does not introduce this condition.
It synchronizes with it.

The artwork does not illustrate the eclipse. It operates through it. When the source of light changes, the system of the city reveals its instability.

TECHNICAL NOTE

demo-eclipse.artkantfish.com
Daily simulation artwork for curatorial preview running with identical temporal parameters and the complete 24 hour structure.

eclipse.artkantfish.com
Live artwork currently counting down to August 12, 2026, when the system activates and unfolds in real time

TECHNICAL EXECUTION NOTE
Eclipse of a New Order operates as a 24-hour web system synchronized with a real solar eclipse on August 12, 2026.

The system unfolds through timed perceptual states within a single URL.

00:00–18:28 urban loop state
18:28–19:30 gradual luminosity increase
19:30 maximum eclipse state
19:30:26 anomalous image event
19:30:26–20:23 return phase
20:23–23:59 re-stabilized urban loop state
23:59 system closure

This structure is only fully experienced in real time.

ABOUT KANTFISH

Kantfish (Emanuele Giusto) is a mixed media artist working across photography, sound, digital systems and temporal structures. His practice investigates perception as a constructed condition, exploring how contemporary systems of image, information and attention continuously redefine what is perceived as real.

Through the conceptual framework More Than Real, he examines instability, saturation and perceptual disruption as structural conditions of contemporary experience.

Based between Portugal and Spain, his work has been presented in contexts including The Wrong Biennale, Círculo de Bellas Artes Madrid, Guinovart Gallery Barcelona, Decentraland and the National Gallery of Modern Art, Bengaluru.
